

## COVID-19 Breast Imaging Precautions

### HAND WASHING

Regular hand sanitizing by patients and staff.

### PHYSICAL DISTANCING

Patients in waiting areas at least 2m apart and may be asked to come to appointments alone.

### MASKS

Level 1 surgical masks for staff and patients in examination rooms and communal areas. Patients may be asked to bring their own cloth masks.

### CLEANING

Thorough cleaning of imaging equipment between patients and workstations between users.

Gowns and disposable gloves also required for staff working closely with patients. Visor or goggle protection strongly recommended.
