

# Diagnostic Radiology Permanent Positions - Victoria BC

We are seeking diagnostic radiologists to join our growing practice.

Our group consists of 26 radiologists who cover the Royal Jubilee Hospital, Victoria General Hospital, Saanich Peninsula Hospital, Lady Minto Hospital, the BC Cancer Agency and a variety of clinics. Our referral base exceeds 800,000 people, and we provide all diagnostic imaging services for the greater Victoria area.

Prospective radiologists should be comfortable with general radiology, including fluoroscopy, ultrasound, CT and MRI, as well as basic image-guided procedures. Fellowship training is a necessity. Specific areas of expertise we are seeking include body imaging, emergency, neuroradiology, and nuclear medicine, but a well rounded generalist with training outside of those specialties would also be considered.

Our group offers generous compensation to new hires and flexible vacation scheduling. Victoria is a beautiful west coast city with year-round opportunities for outdoor recreation.

Candidates must hold Royal College of Physicians and Surgeons of Canada certification in Radiology (FRCPC), and be eligible for full licensure with the College of Physicians and Surgeons of BC.

Please reach out to me if you are interested, or if you have questions.
